

# **BalticServers answers to clients questions**

## **Bandwidth. What is a bandwidth?**

Dedicated servers are connected to a Gbit /s switch in which each server is assigned a 100 Mbit /s or 200 Mbit / s port. But if you need more, we can easy connect your server to 400 Mbit /s, 600 Mbit /s, 800 Mbit /s or 1000 Mbit /s port.
